

Pressemelding fra Island Drilling Company ASA, 15.12.2016

Island Drilling Company ASA har i dag 15.12.16 inngått kontrakt med Lundin Norway for boring av 1 brønn på Edvard Grieg feltet med Island Innovator.

Oppstart er planlagt i første kvartal 2017. I kontrakten er det også muligheter for ytterligere opsjoner.

Riggen ligger for tiden i varmt opplag på Hanøytangen utenfor Bergen, frem til oppstart er det planlagt prosjekt aktiviteter samt trening av mannskaper ombord på riggen.

Island Drilling Company er glad for at Lundin igjen viser tillit til vårt selskap, og til Odfjell Drilling ASA som er manager for operasjonen.

Mvh,

Roger Simmenes

Press release from Island Drilling Company ASA, 15.12.2016

Island Drilling Company ASA is pleased to announce that the company has been awarded a drilling contract with Lundin Norway AS.

The contract is for 1 (one) well at Edvard Grieg with the rig Island Innovator. Start-up is scheduled for first quarter 2017.

The drilling contract includes options for additional wells. Island Innovator is currently in warm lay-up at Hanøytangen, Bergen.

In the period from contract date until commencement date, project activities and training of crew on board the rig will be carried out.

Island Drilling Company is grateful for that Lundin Norway AS again chooses Island Drilling Company ASA together with the management company Odfjell Drilling ASA, to perform their drilling activities

Best Regards,

Roger Simmenes
